- ^ This BMP is a continuation or extension of an existing practice established by the applicant. The applicant was eligible to receive a tax credit for 25% of the first \$70,000 of the expense of the existing, previously installed BMP for the taxable year in which the practice was completed, pursuant to section 58.1-339.3 (Code of Virginia).
- % This practice does not meet the definition of a tax credit-eligible Agricultural BMP as defined in section 58.1-339.3 (5.B.) (Code of Virginia), as the cost share rate is provided to acquire a Virginia certified professional nutrient management planner to generate a plan, and not to implement a conservation practice on the ground.
- * The “X” in the “Ag BMP Loan” column denotes BMPs that are eligible for a loan from the Virginia Water Facilities Revolving Fund (VWFRF) administered by the Department of Environmental Quality.
- # The participant must certify in writing that he will not utilize a Tax Credit to receive Cost-Share funding.
- @ Only if wetland is constructed to treat animal waste runoff
